

How does it work?

The GAS Mojo Engine Booster™ Filter unit attaches inline to the fuel line going to the vehicles engine just like a fuel filter. A wave of energy is produced in fuel moving through the energy unit. This action atomizes fuel and causes fine particles to dislodge from internal engine parts. This process helps to burn more hydrocarbons in fuel which makes fuel burn more efficiently. Does not change the basic fuel formula and is completely safe for all types of gasoline and diesel fuel blends. Does not contain magnets or any hazardous materials!

What are the \$\$ Savings!!!!

- Saves thousands of dollars per year in fuel and engine maintenance
- Savings versus costly fuel additives
- Reduces deposits in fuel lines thus reducing fuel pump wear
- Helps keep fuel injectors cleaner
- Helps reduce costly tune-ups which can save you hundreds of dollars a year
- Cleaner burning fuel keeps spark plugs cleaner
- Helps Improve combustion and performance
- Engines equipped with automatic transmissions run and shift smoother
- Saves on fuel when operating at constant speeds
- Safe for all types of gasoline and diesel fuels
- Two year warranty from date of purchase

GM-2

Designed for smaller 4 and 6 cylinder gasoline and diesel fuel engines
This unit is designed for installation directly on fuel line going to engine only.
Fittings 1/2 inch female standard pipe thread. Fittings for fuel line not included.
Maximum fuel line pressures 100 PSI
Flow rate up to 90 GPH
Maximum operating temperature -20 degrees to + 180 F
Unit dimensions 3 inches width x 5 inches length – Unit weighs 7 ounces
Mounting bracket for unit to frame included
2 year warranty
Price - \$175.00

GM-3

Designed for 8 cylinder trucks and buses with gasoline and diesel fuel engines
This unit is designed for installation directly on fuel line going to engine only.
Fittings 1 inch female standard pipe thread. Fittings for fuel line not included.
Maximum fuel line pressures 100 PSI
Flow rate up to 90 GPH
Maximum operating temperature -20 degrees to + 180 F
Unit dimensions 4 inches width x 6.25 inches length – Units weighs 16 ounces
Mounting bracket for unit to frame included
2 year warranty
Price - \$225.00
