

Dragons of ME Therapy

Empowering the Music of the Universe

Dragons Drawn by Dr. Hildy®

The tale of the Dragons of the Seven Cosmic Seas of ME by Hildegarde Staninger and Roberto Mentuccia, Oak Tree Press © 2016 is only the beginning of the worlds of the formed 3D world into the infinite unformed and unseen worlds. The Dragons of ME Therapy is a new kind of physics in which time and eternity, the solid and the unseen, light and sound become the empowering music of the Universe as it moves you into being your true pure self – one with all of Creation. It is the solid and the unseen, light, love, poetry and mind that allows for endlessly transformation into each other through the energies of the Ancient Primordial Dragons of ME that are forever eternally one with Creation. They are the stardust within your heart as they align you to your own part of the universe's star system that created YOU. Allowing you to be the star you are to shine brightly into the universe and beyond.
