You Need to Protect Yourself from EMF Exposure

If you're like most people, you have a bunch of appliances in your home, like a refrigerator, microwave and dishwasher. And chances are you're using some kind of electronic device right now to read this. What all these have in common is they emit EMFs (electromagnetic frequencies). So does the smart meter installed by your electric company, your hair dryer, even your wall outlets. This raises an important question – is there a point where too much exposure to EMFs becomes dangerous?

Resources for States Facing ALEC (Cookie Cutter) 5G Bills

These State Bills would allow Telecom to place *high-intensity, microwave radiating* cell tower antennas in front of homes and in our communities while removing local control.

Our legislators should protect citizens' interests, NOT the wireless industry's reckless and ill-considered power grab!

EXCERPT: It appears the following states have already passed 5G bills:

Arizona, Colorado, Delaware, Florida, Indiana, Iowa, Kansas, Minnesota, North Carolina, Rhode Island, Virginia
