

## **Dr. Hildy®'s Whole Body Detox & Environmental Health Educational Program**

When you look at the recent data from the Centers for Disease Control and Prevention (CDC) for 2017, it is hard to believe how many individuals die each year from the following diseases:

- 614,348 deaths by heart disease.
- 591,699 deaths by cancer.
- 147,101 deaths by lower respiratory disease.
- 133,103 deaths by stroke.
- 93,541 deaths by Alzheimer's disease.
- 76,488 deaths by diabetes.
- 55,227 deaths by pneumonia.
- 48,146 deaths by kidney disease.

This does not account for the 253,000 deaths attributed to medical mistakes, according to John Hopkins experts who argue that medical mistakes are the third leading cause of death in America. And in a recent announcement by the FDA they admitted, that hydrogenated oils alone attributed to 20,000 heart attacks and 7,000 deaths per year.

Our air, water and food supplies are completely compromised and so it is time for us to take matters into our own hands and help yourself as you become educated in Dr. Hildy's Whole Body Detox and Environmental Health Program, which will assist you in learning how to reduce your Toxic Body Burden exposures to chemicals and toxic metals from your environmental, workplace, governmental (mosquito spraying) and your next door neighbor's lawn care service of spraying pesticides on their yard that blows into your yard and home. It is time to look at the TOTAL Picture so you may reduce your Total Body Burden of Toxins.

There are over 80,000 chemicals used in various industries country-wide. There are over 2,000 new chemicals being introduced annually in the United States. Toxins are known to accumulate in our fat cells, which includes your brain. If they are not eliminated, they will interrupt your normal bodily functions as well as cause systemic organ failure over time.

Some examples of just chemicals that cause various odors to occur in your mouth or body, may help you to understand how important Dr. Hildy's Whole Body Detox and Environmental Health Educational Program is for you as it will assist you in maintaining a Happier Healthy Life for yourself and family.

- **Rotten egg odor** - sulfur.
- **Thirst** - pentachlorophenol, nitrophenols, inorganic arsenicals, phosphorous, phosphides, sodium fluoride, borate, endothall, aminopyridine, cholecalciferol
- **Metallic taste in the mouth** - inorganic arsenicals, organic mercury.
- **Sweet taste in the mouth** - chlordimeform.
- **Salty, soapy taste in the mouth** - sodium fluoride.

So, if you are wondering why you may not be feeling up to your 100 % Very Best, the cause may be from your toxic burden of chemicals, toxic substances, heavy metals and pesticides.

Dr. Hildy's program is designed for everyone and consists of the following services that are not only conducted by Dr. Hildy, but her support staff of highly skilled Practitioner's in their related Therapeutic Modality and/or Energy Medicine fields.

The program is kicked off and ends with Dr. Hildegard Staninger®, RIET-1, Industrial Toxicologist/IH and Doctor of Integrative Medicine, who is known as "Dr. Hildy®" on the One Cell One Light® Radio Show ([www.onecellonelightradio.wordpress.com](http://www.onecellonelightradio.wordpress.com))
