**NEW**

If you are exposed to mold, medications, pesticides and other toxic substances order the NEW Test Panel for Dr. Hildy® offered through Direct Labs and Integrative Health Systems®, LLC.

**Dr. Hildy's Basic Exposure Assay for Mold, Pesticides, Medications, Chemicals and other Toxic Substances.**

The assay is a collection of tests that are specific for exposure to mold, pesticides, medications, industrial solvents and other toxic substances. The collection of tests are ideal for the assessment of exposure to MRI dyes, neurodust, advanced materials and polymers/silicone as well as silane, siloxane and glyphosate.

Remember you can order through Direct Labs the test individually or as a panel as outlined by Dr. Hildy®
