Measuring scoop included.

Item #70612

Popular laundry products use detergents, which stay in your clothes and cause dry, itchy skin and rashes. Our pure, natural laundry soap contains no detergents, dyes or fragrance to irritate sensitive skin.

**100% SkinSAFE and Top-Allergen Free!**

**\* Mayo Clinic Doctors Say!**

**Announcement! Mayo Clinic dermatologist Dr. Yiannias has added GRANDMA'S Lye Soap (for face & body) and GRANDMA'S Laundry Soap (non-detergent) to the SkinSAFEProducts.com database and each carry the 100% TOP FREE designation.** The "TOP FREE" are products that are free of chemicals that cause allergies and serious itchy skin problems. **These chemicals are very prevalent in personal care products and laundry detergents. Laundry detergents are problematic because detergents don't easily rinse out of clothing and can cause skin irritation and rashes.** GRANDMA'S products have always been "TOP FREE".

**\*Dr. Yiannias says about 40% of people who have eczema could keep their condition under control if they only used skin safe products.** The SkinSAFEProducts.com database was developed by James Yiannias, M.D., a dermatologist at the Mayo Clinic in Scottsdale, AZ.
